

# SUPER BOWL POOL RULES

- Upon purchasing a ticket your ticket will be highlighted with the Grid # and Square #. This is your assigned square on either Grid #1 pool or Grid #2 pool.
- Once all squares have been sold, a random drawing will be done to fill in the boxes which represent the teams' scores.
  - The numbers 0 - 9 will be placed in a hat and drawn out one at a time, arranging them on the AFC and NFC sides accordingly.
- The winning square in each quarter will be determined by using the last digit of each team's score at the end of each quarter.
  - Example: If the score at the end of the first quarter is AFC 10 - NFC 14, you would find the number 0 in the top column representing the AFC's team score and then you would find the number 4 in the left hand row representing the NFC's team score.
  - Follow those numbers to see which square they intersect, the number in the box where they intersect is the square # winner of the 1st quarter.
- The following are the payouts for each quarter winner:
  - End of 1st Quarter = \$50.00
  - End of 2nd Quarter = \$100.00
  - End of 3rd Quarter = \$100.00
  - End of the Game = \$500.00
- Pool winners will be notified to see where money should be sent and checks will be distributed as quickly as possible.

**Thank you for supporting the Vergennes Pavilion Project!**

\*Grid scores will be filled in by Feb 12th

## GRID #1

### AFC SCORE

NFC  
SCORE

SCORE
